Summary of Legislation: (Amended) This bill defines "trip" as the movement of a vehicle or combination of vehicles having a total gross weight greater than 80,000 pounds but less than 134,000 pounds within a 24-hour period for purposes of a statute requiring a special weight permit for each trip on an extra heavy duty highway. It changes the designation of certain sections of extra heavy duty highways.

Effective Date: July 1, 2002.

Explanation of State Expenditures:

Explanation of State Revenues: (Revised) The proposal likely will reduce the number of permits issued by the Department of State Revenue. Currently, trip is defined as the movement of a vehicle from point of departure to point of destination. As such, a permit is required for each trip. The fee for the permit, issued by the Department of Revenue, is \$42.50, with \$41.50 deposited into the State Highway Fund and \$1 deposited into the Motor Carrier Regulation Fund. The Department of Revenue reports that they issue approximately 78,000 such permits each year resulting in annual revenue of about \$3.315 M. Of this amount, approximately \$3.24 M is deposited into the State Highway Fund and \$78,000 is deposited into the Motor Carrier Regulation Fund. With this proposal, a vehicle will be allowed to make multiple trips during a 24-hour period, thus reducing the number of permits purchased.

The amendment of 2/21/02, changing the designation of certain sections of extra heavy duty highways, will have no fiscal impact.
